G. E. Inskeep

Microporous Structure of Dehydrohalogenated
Polyvinyl Chloride; Helf. #582-720 - PM #550

Enclosed are questions from Mr. Baer on this disclosure, a copy of which is also enclosed. I will provide him the references of item 1 and will answer questions 2 and 3 which seem to arise from a misunderstanding of my write-up (I believe the answers should begin "no" and "yes", respectively). I hope you can answer most of the remaining 36 questions.
